

London Paramount Public Consultation

## What we've done so far

London Paramount has held three stages of public consultation events on proposals for a world class Entertainment Resort on the Swanscombe Peninsula. Most recently we held a series of open workshops (stage three) to allow further discussion of issues such as transport, environment and regeneration with the London Paramount project team. Our report on the workshops (called "Your Feedback from Stage Three") is available on the London Paramount website:

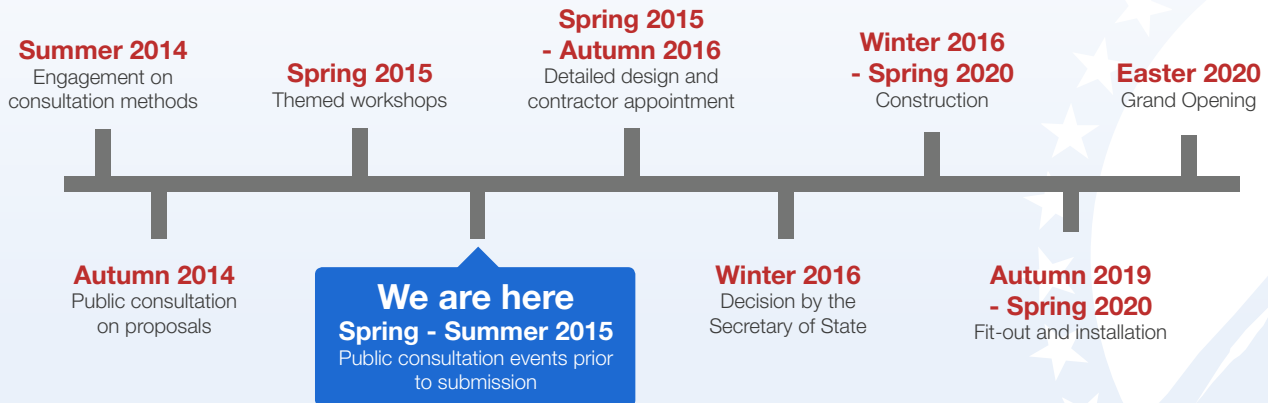

[www.londonparamount.info](http://www.londonparamount.info)

## What we're doing next

The feedback we have received to date has helped us to evolve the proposals for the Entertainment Resort. We are now in a position to show you the plans we anticipate submitting to the Secretary of State in late summer 2015 and would like your views on the emerging masterplan and our approach to transport, environment and wider regeneration.

We hope you can come along to one of our consultation events to see the plans and share your views with the team.

# The key elements

Key elements of the proposals:

- A world class theme park
- Up to 27,000 jobs
- Water park
- A creative commercial hub
- Up to 5,000 quality hotel rooms
- Improvements to transport infrastructure
- High tech events space
- Service buildings
- Staff training facilities

The Entertainment Resort will have over 50 exciting rides and attractions themed around the film and television programmes of Paramount Pictures Corporation and British producers. We are delighted that BBC Worldwide, Aardman and the British Film Institute have all signed agreements with London Paramount in the last year helping to ensure that London Paramount Entertainment Resort will bring together the best of Hollywood with the best of British.

## Consultation event dates

This consultation is your opportunity to find out more about our plans for the London Paramount Entertainment Resort and share your views.
